Our Irish Heritage  
Supporting & Promoting Irish History & Culture

# 19<sup>th</sup> century OSI historical maps

- Joint project between Ordnance Survey Ireland and UCD Library
- OSi provided UCD Library with scanned images of almost 1370 maps for about **150** Irish cities, towns and villages.
- The OSi gathered the sheets to scan from their own collections, Trinity College Dublin, the National Archives and the National Library of Ireland.
- Most are five-foot and ten-foot town plan maps and date between 1847 and 1896. The remainder were produced by enlargement of the 1:2500 maps between 1892 and 1908.

Ordnance Map : an  
Introduction for  
Irish Readers*  
page 26

## **Why were the towns mapped & which ones?**

**Following the 1854 Towns Improvement (Ireland) Act, maps seen as important as aid to improve sanitation and drainage**

**Some towns mapped at 1:1056 (five feet to one mile)**

**After 1857 any Irish town with a population of 1000 or more was mapped at 1:500 (ten feet to one mile)**

**From 1866 so many towns needed to be mapped the scale of mapping was reversed to 1:1056**

**In 1872 decision made that the population needed to be 4000 to qualify for mapping ..**

# CATALOGUE

OF THE

## MAPS AND PLANS AND OTHER PUBLICATIONS

OF THE

ORDNANCE SURVEY OF IRELAND,

# TOWN MAPS.

THE ORDNANCE MAPS of CITIES and TOWNS in IRELAND, on the Scales of  $\frac{1}{1056}$  or 5 feet and  $\frac{1}{500}$  or 10.56 feet to a mile. On sheets, size of each sheet 42 in. by  $28\frac{1}{2}$  in.

In the following tables are given—

1. A list of towns of which the maps are on sale.
2. A list of towns of which the plans are deposited at the Ordnance Survey Office, Dublin, not having been published.

LIST OF TOWNS OF WHICH THE MAPS ARE ON SALE, SHOWING THE NUMBER OF SHEETS, WITH THE NUMERALS AND PRICES OF EACH SHEET.

Any of the sheets in the following list can be demanded, if required, uncoloured, and if so demanded will, if available, be issued in the usual course at the uniform price of 2s. 6d. per sheet.

*Town Indexes.*—Indexes, generally on a scale of six inches to one mile, showing the sheets into which each town is divided, and giving details of streets and prominent buildings, &c., are on sale at prices varying from 2d. to 6d., according to the size of the town, and the scale of the index.

Special index maps are published for the towns of Belfast, Cork, and Dublin, the prices of which are given in the list.

### TOWN MAPS.

39

NAME OF TOWN AND DATE OF SURVEY.	Scale of Map.	No. of Sheets.	Numerals and Prices.
Tralee (Revised 1892-3).	$\frac{1}{500}$	12	XXIX. 10.—18, 19, 20, 23, 24, 25; XXIX. 14.—2, 3, 4, 5, 8, 9; 2s. 6d. each.
Tuam (1892)	$\frac{1}{1056}$	3	XXIX.—88, 98; XLIII.—8; 2s. 6d. each.
Tullamore (1888)	„	4	XVII.—42, 43, 52, 53; 2s. 6d. each.
Tullow (1874) -	$\frac{1}{500}$	8	1; 4s. 6d. 2; 3s. 6d. 3; 5s. 6d. 4; 6s. 5, 7, 8; 5s. each. 6; 7s. 6d.
Warrenpoint (1861)	„	7	1; 4s. 6d. 2, 7; 5s. 6d. each. 3; 4s. 4; 6s. 5; 7s. 6d. 6; 6s. 6d.
Waterford (1870-1)	$\frac{1}{1056}$	11	IX.—68, 69; 7s. each. IX.—70; 4s. 6d. IX.—78; 8s. 6d. IX.—79; 14s. IX.—80, 100; 5s. each. IX.—88; 6s. 6d. IX.—89; 9s. 6d. IX.—90; 6s. IX.—99; 7s. 6d.
Westport (1893) -	„	6	LXXXVIII.—21, 22, 23, 32, 33; 2s. 6d. each.
Wexford (1882)	$\frac{1}{500}$	21	XXXVII. 12.—11, 12, 16, 17, 18, 22, 23, 24; XXXVII. 16.—2, 3, 4, 7, 8, 9, 10, 13, 14, 15, 18, 19, 20; 2s. 6d. each.
Wicklow (1895) -	$\frac{1}{1056}$	2	XXV.—77, (78 & 67); 2s. 6d. each.

This catalogue lists the towns, with their date of survey and the scale the town was mapped at.

1:1056 = five feet to one mile

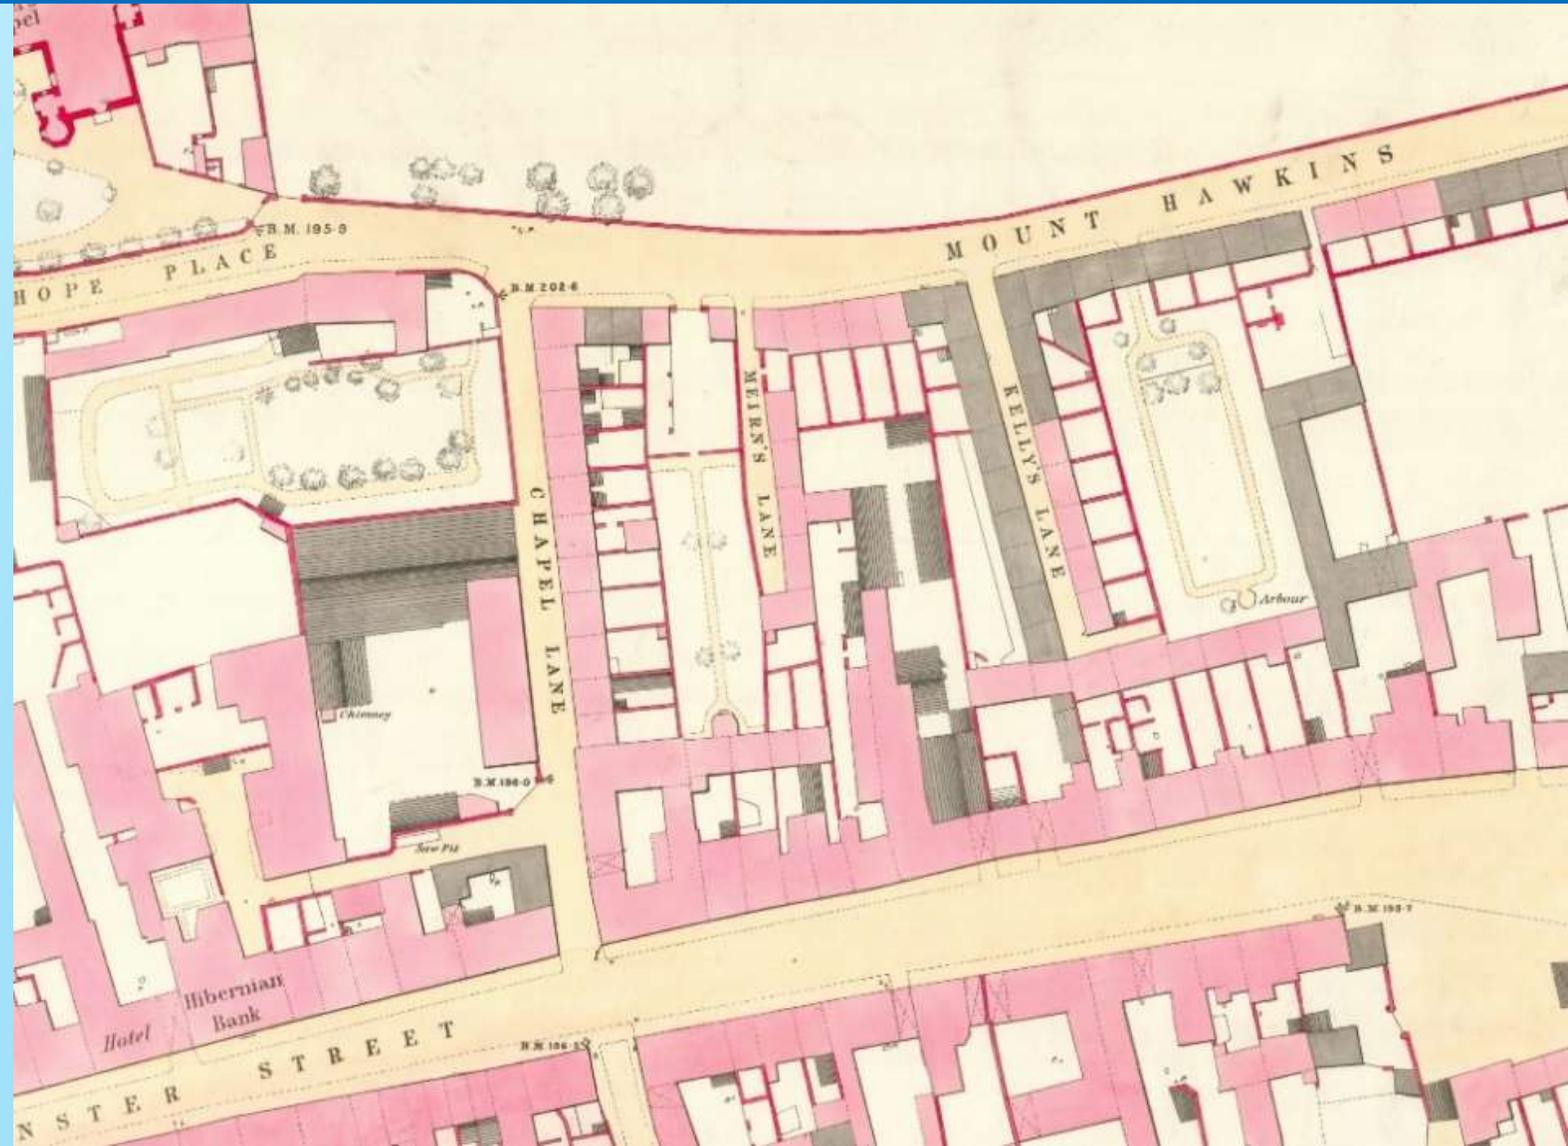

1:500 = ten feet to one mile

# Ordnance Survey Ireland (OSi) 19th Century Historical Maps

## Athy

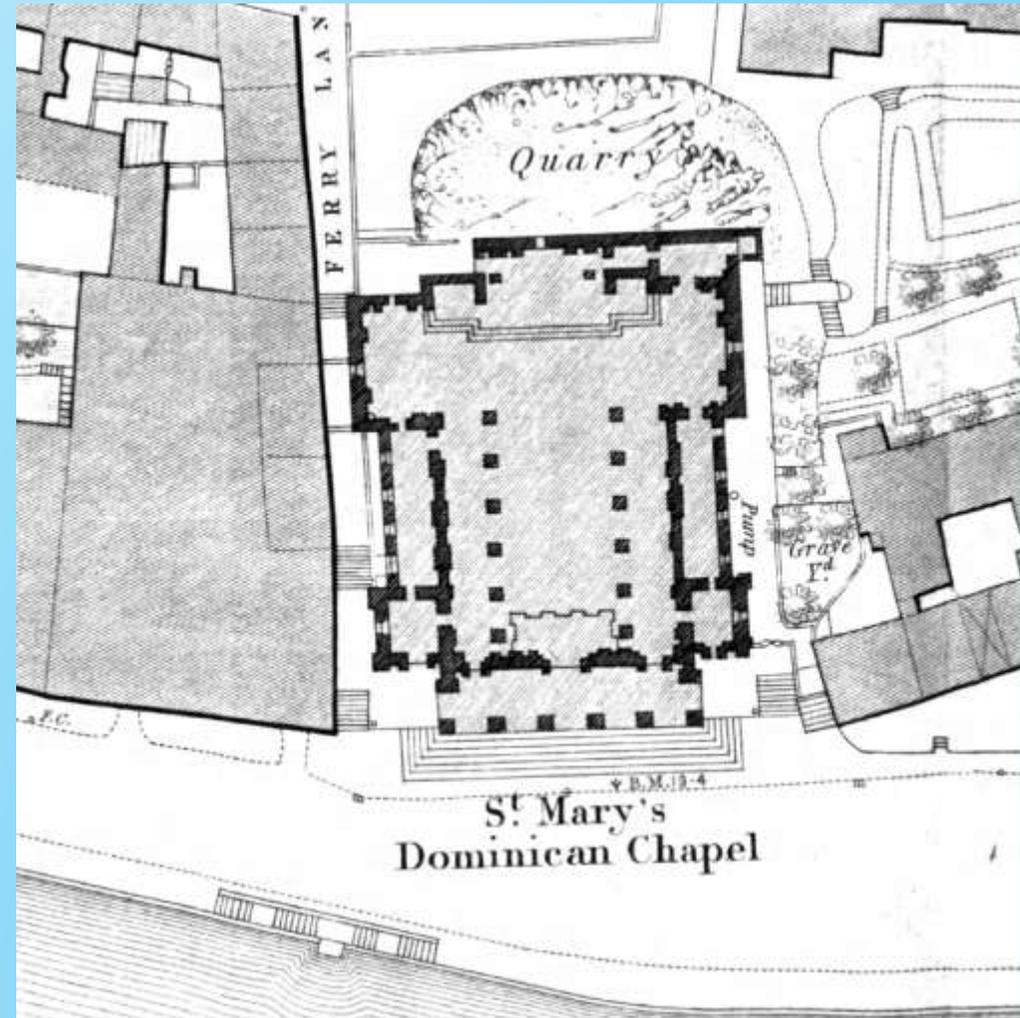

10ft to 1 mile, 1872

Some towns are available in colour, but most are black & white

## OSi 5 feet and 10 feet 19th century maps

The large scale at which they were surveyed means that details such as the ground floor interior plans of public buildings from churches and banks to hospitals and railway stations were included.

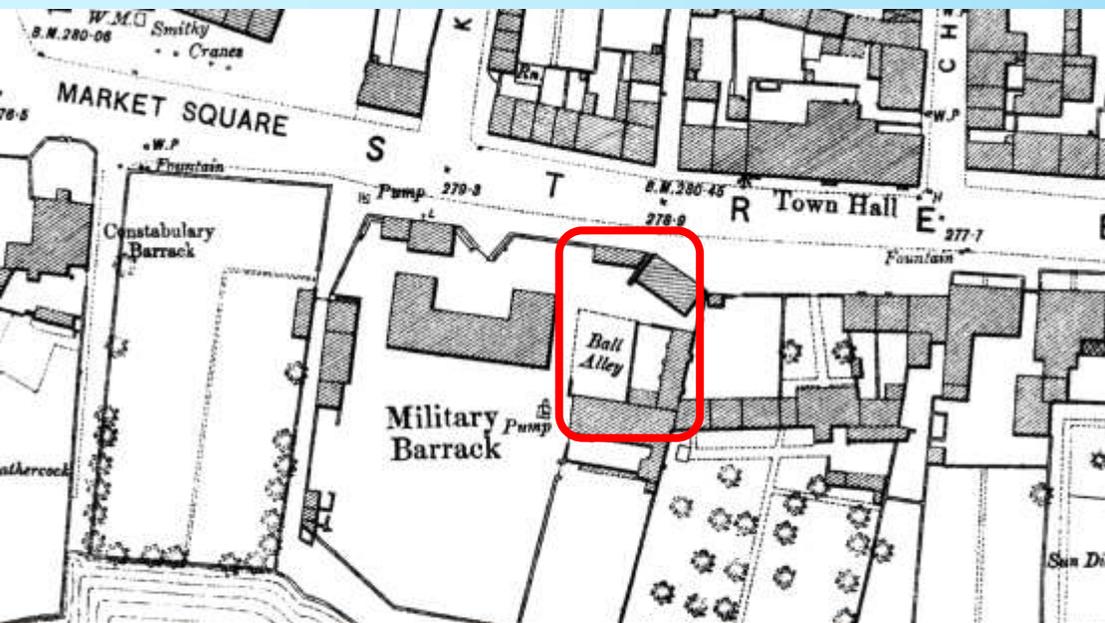

*Cork Sheet LXXIV.45, 1869, 5 feet to 1 mile*

Ennis Sheet 12, 1878, 5 feet

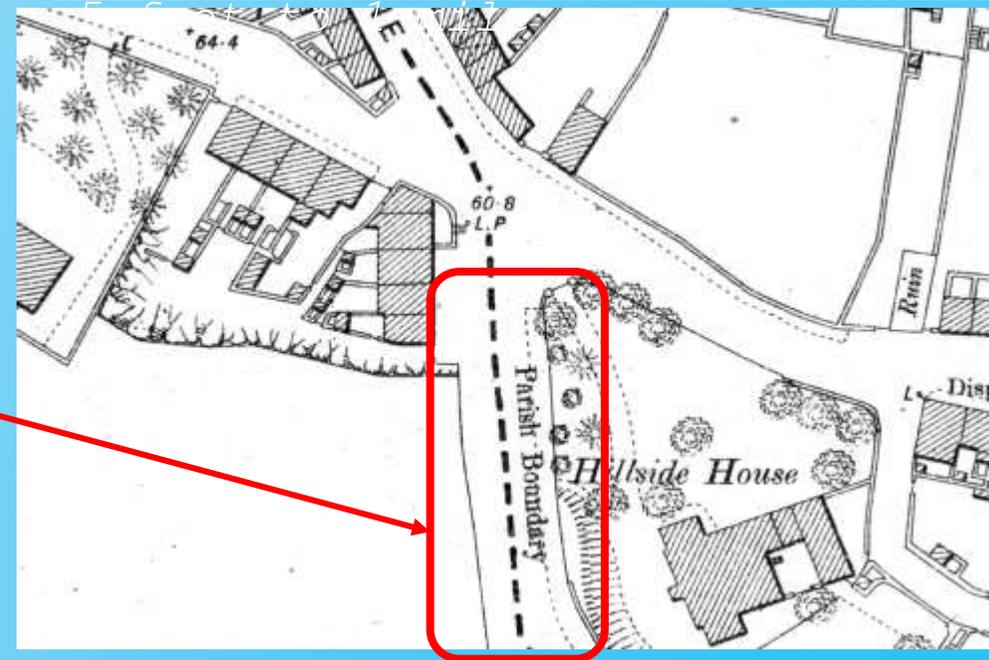

The building types / industries such as mills, foundries, dye works, barracks, ball alleys, blacksmiths are all clearly marked.

Wicklow Town Sheet XXV-47, 1895,

Other useful information shown includes the parish, barony, townland, ward and municipal boundaries.

Loughrea Sheet CV-47, 1892, 5 feet to

## Ordnance Survey Abbreviations

We are very grateful to Dr Richard Oliver for compiling this list and allowing us to use it. The abbreviations have been compiled from a number of sources, relating to all scales of Ordnance Survey mapping in Scotland, England and Wales. For more information on these abbreviations and their interpretation, please consult Richard Oliver's book *Ordnance Survey maps: a concise guide for historians*. 3rd edition (London : Charles Close Society, 2013).

## Ordnance Survey Ireland (OSi) 19th Century Historical Maps

**Abstract** A collection of mainly 19th century maps of almost 150 cities, towns, and villages in the Republic of Ireland. Most are Town Plans which were surveyed at either five or ten foot to one mile scale between 1837 and 1896. The remainder were produced by enlargement of the 1/2500 maps between 1892 and 1911.

### 8.2 Celbridge

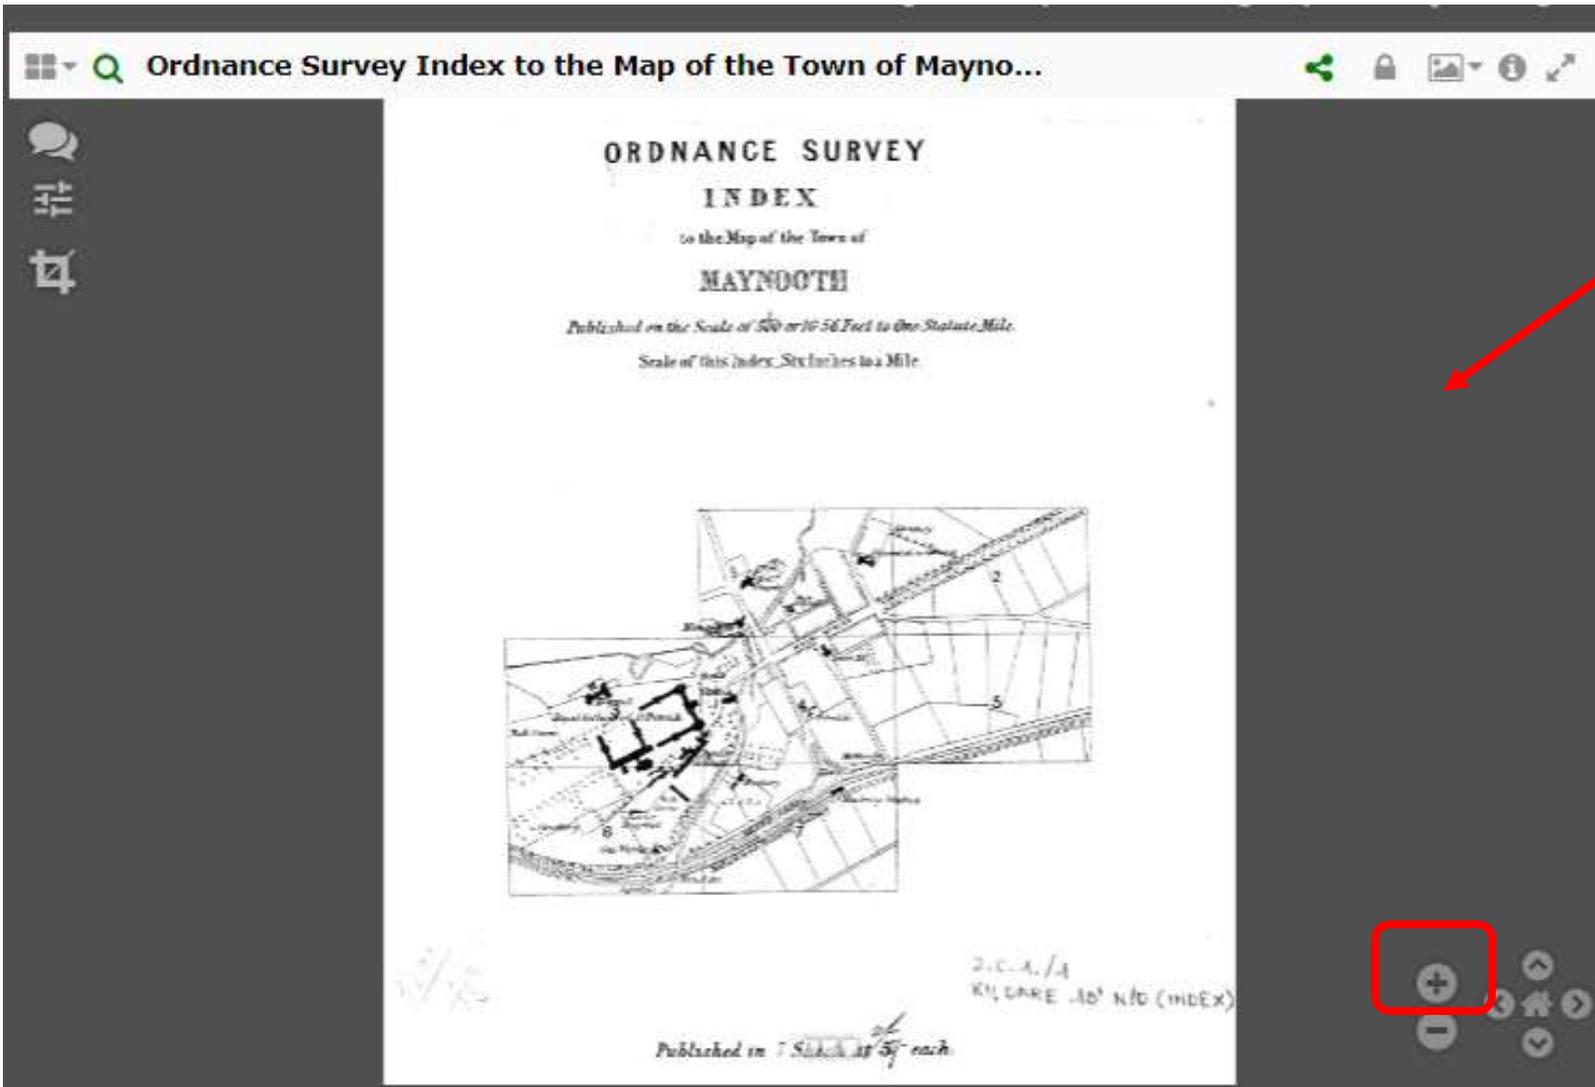

[Ordnance Survey Index to the Map of the Town of Celbridge \(1838\) \[View\]](#)

All of the maps are listed by county.

Scroll down the page to find a county and within that county you'll see the cities, towns, villages which have maps.

Many of the towns include an index sheet

# Ordnance Survey Ireland (OSi) 19th Century Historical Maps

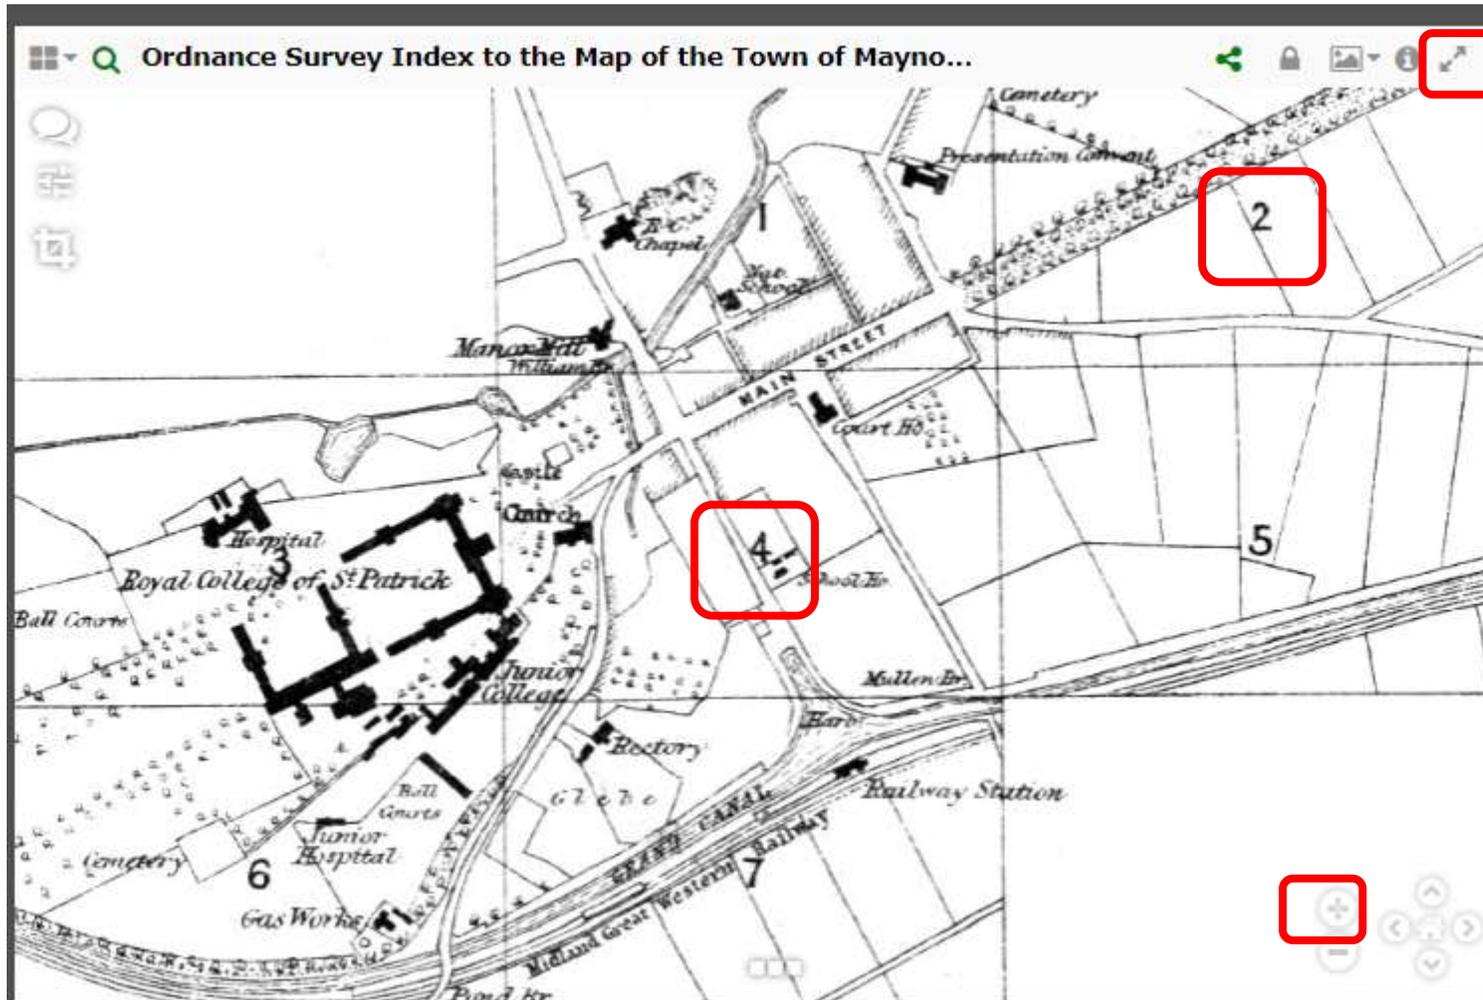

This is the screen you will see if you click on a link to a map or index.

**Left click** on the button to zoom in on the index

# Ordnance Survey Ireland (OSi) 19th Century Historical Maps

Keep clicking on the + button until you can see the sheet numbers.

For a full view of the index click on the **double-ended arrow** at the top right of the screen.

Visual map locator <http://digital.ucd.ie/maps/explorer/>

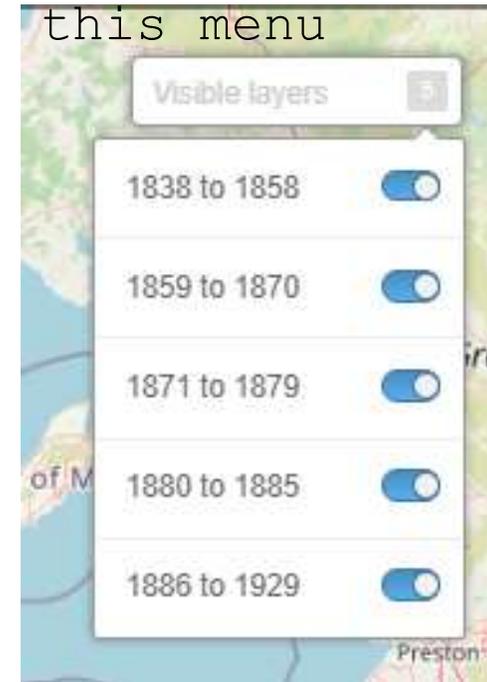

Another way to find a map is to use the **visual map locator**

To open the map, **left click with your mouse on the link** shown here in the red

This is a map of the whole of Ireland where you can zoom in to your place of interest and select the map published for that area

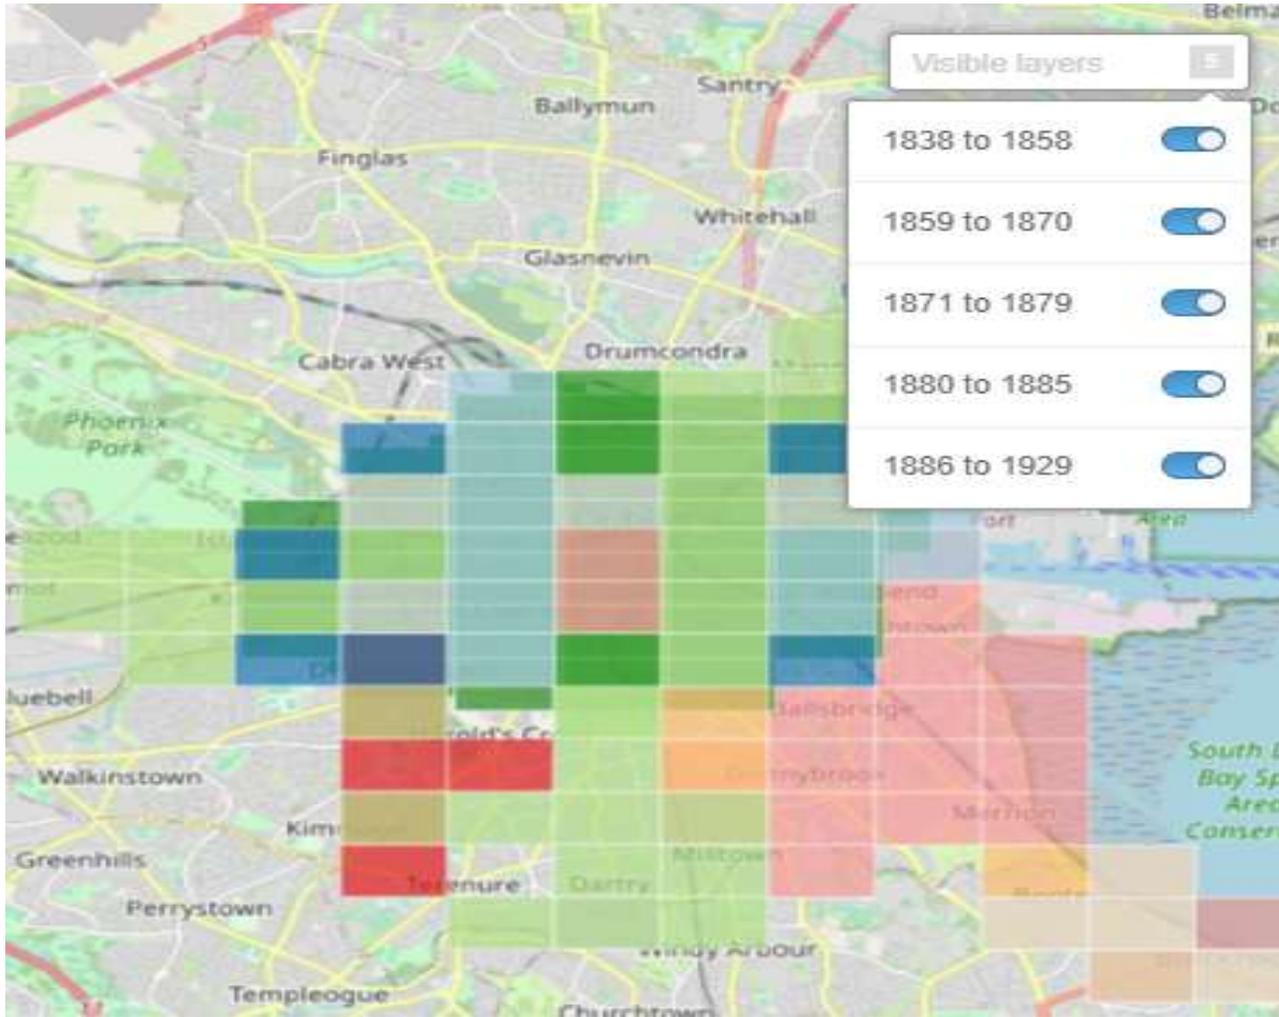

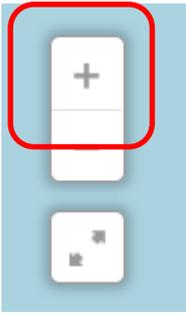

In the right corner of the map, you will see **Visible Layers** click on the text **Visible layers** to open this menu

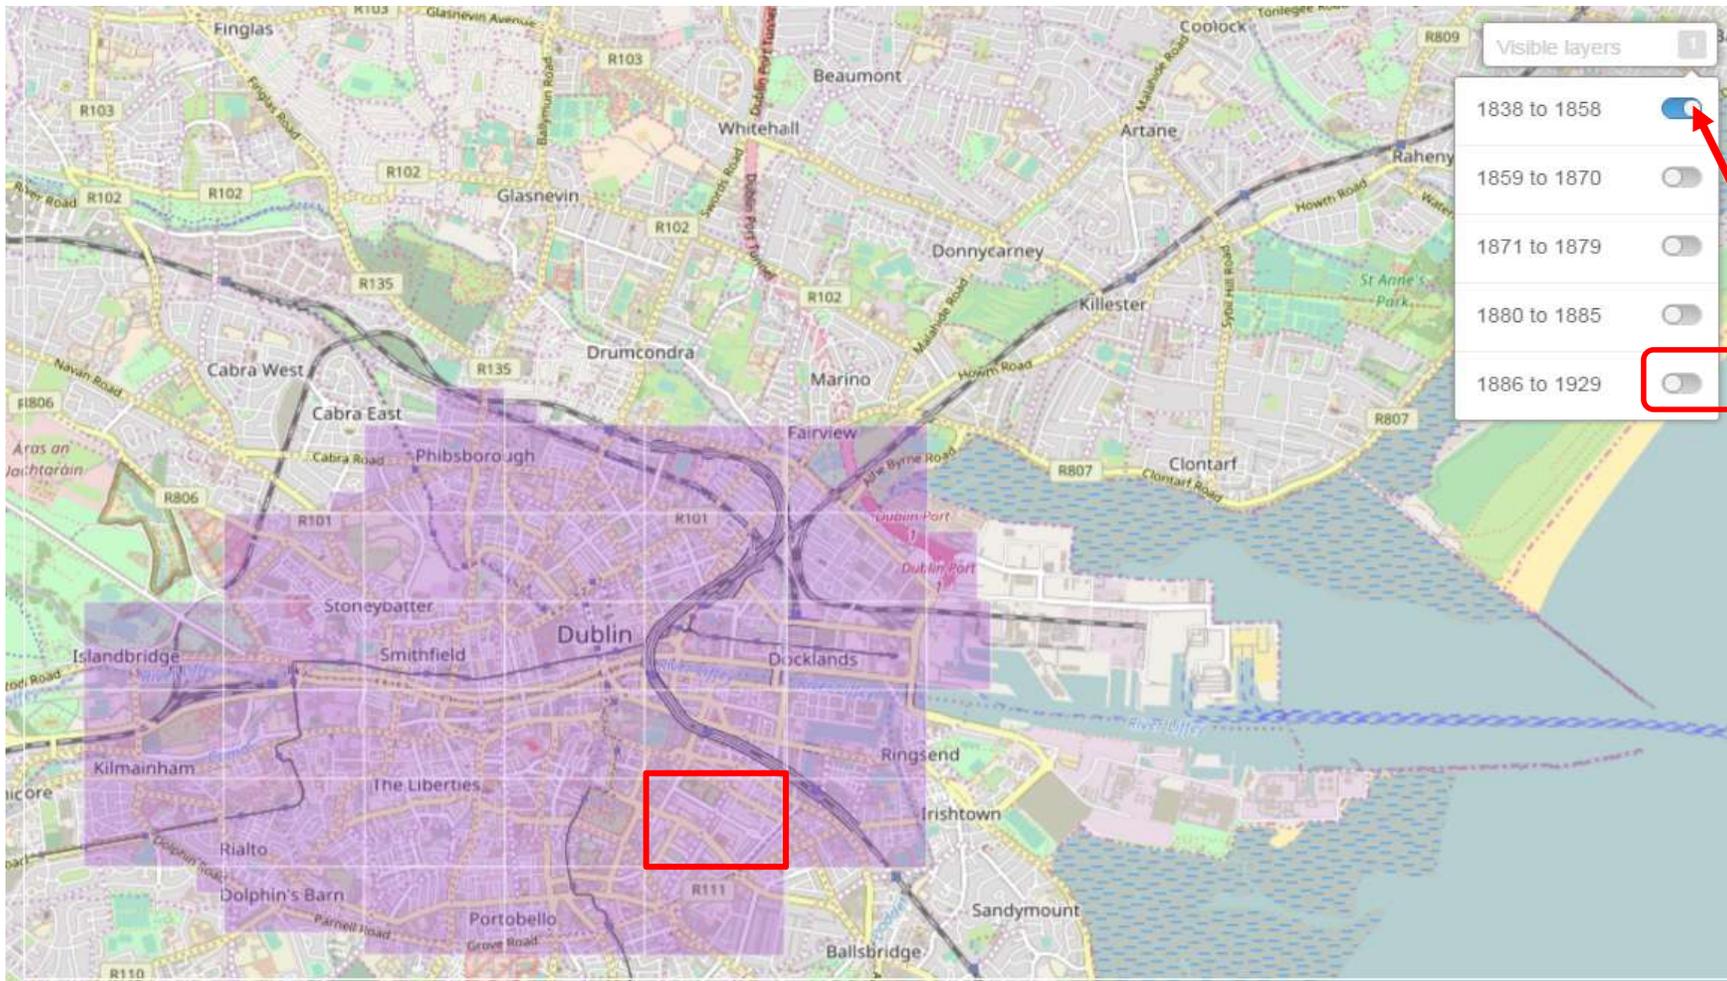

The layers are five **date ranges** that the maps have been sorted into.

The default setting is that **ALL** the date ranges are active / visible when the map

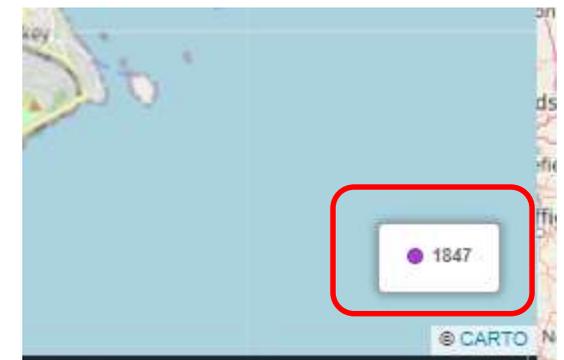

If you zoom into the Dublin area with the + button on left hand side of screen you will see lots of coloured rectangles on the map. The rectangles represent maps, and the colours relate to different dates.

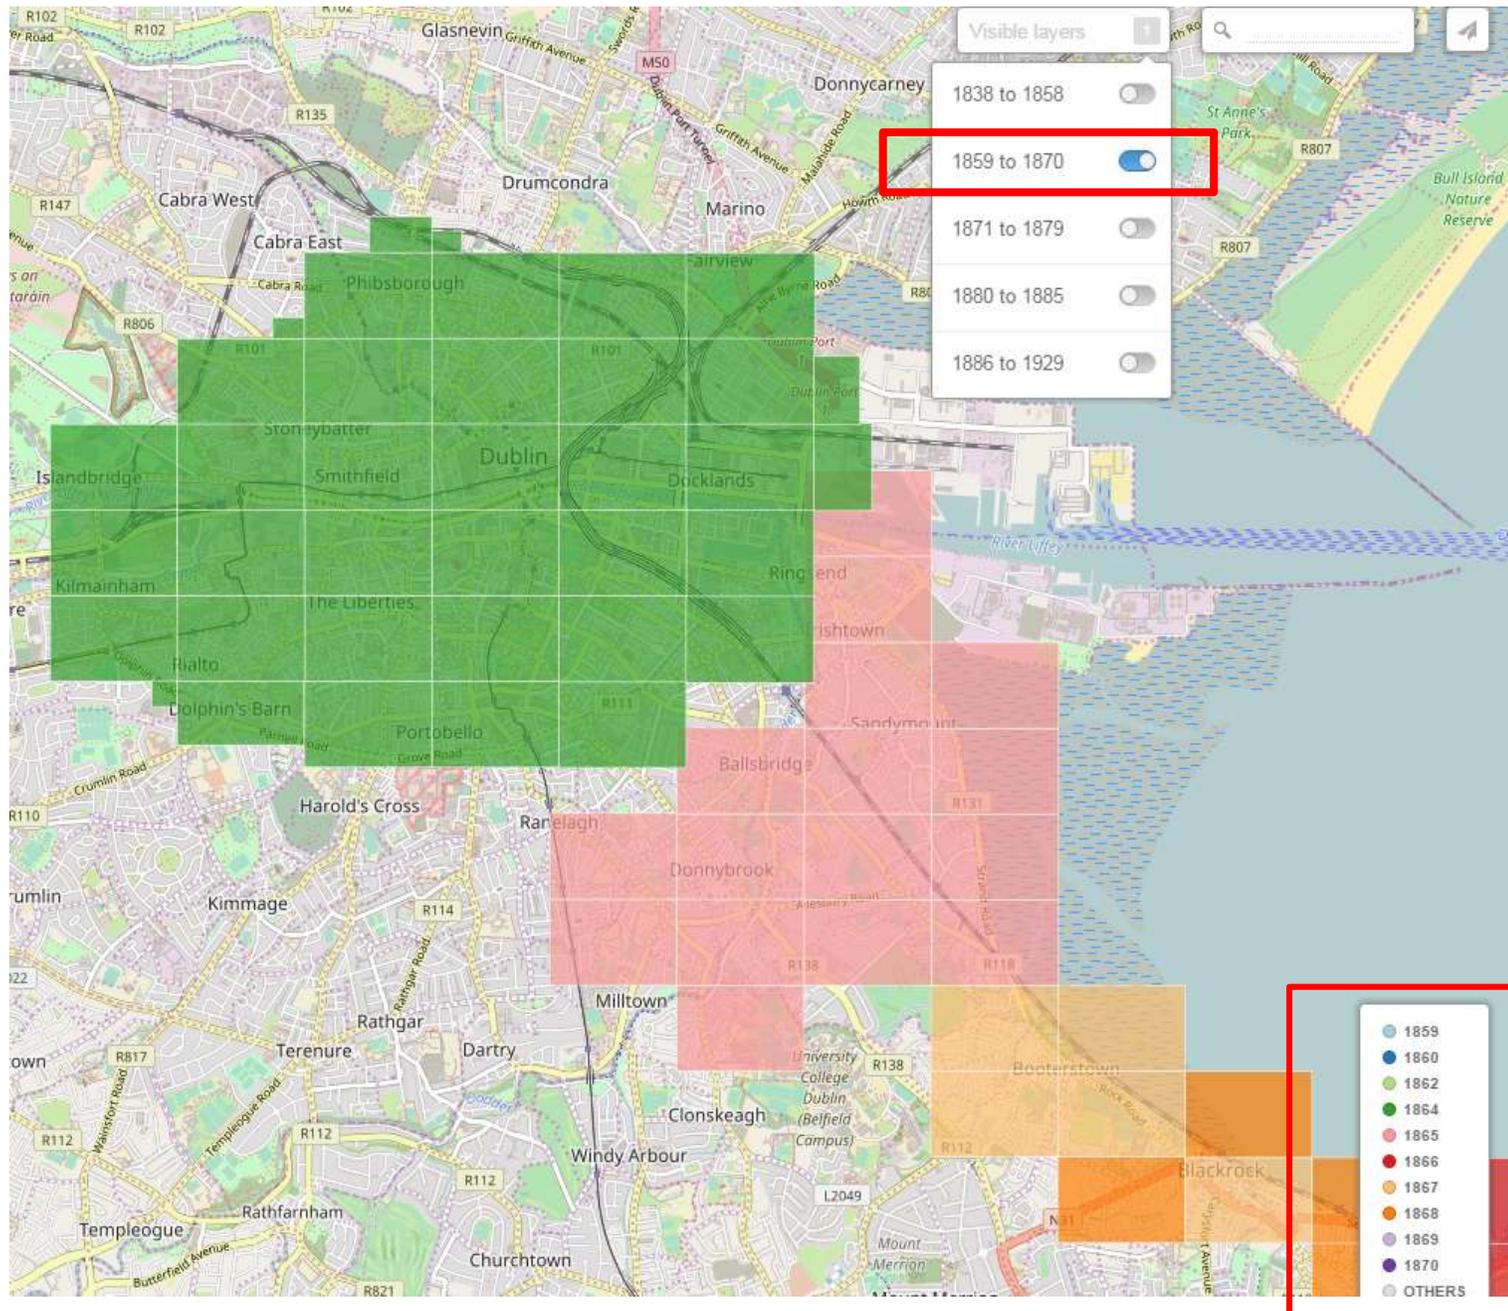

**Left click** on the 'blue' radio buttons to switch off the date ranges which are **NOT** of interest

Here, only maps within the date range **1838-1858** are visible - each map is represented as a purple, coloured rectangle

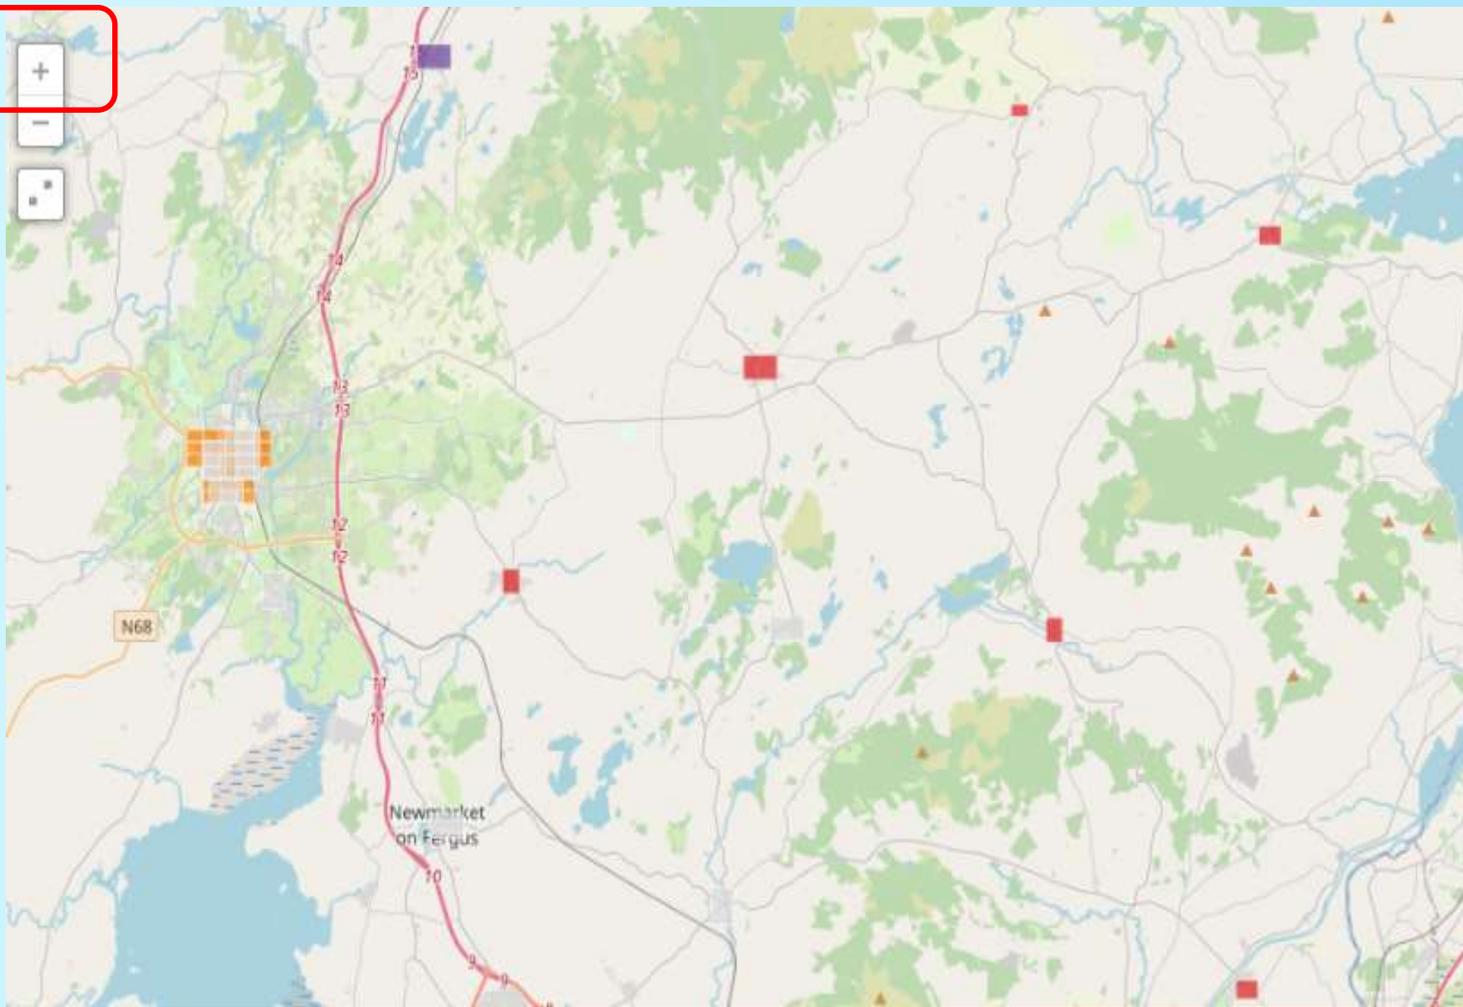

In the bottom right corner of the map the legend shows that the purple colour is for the year 1847

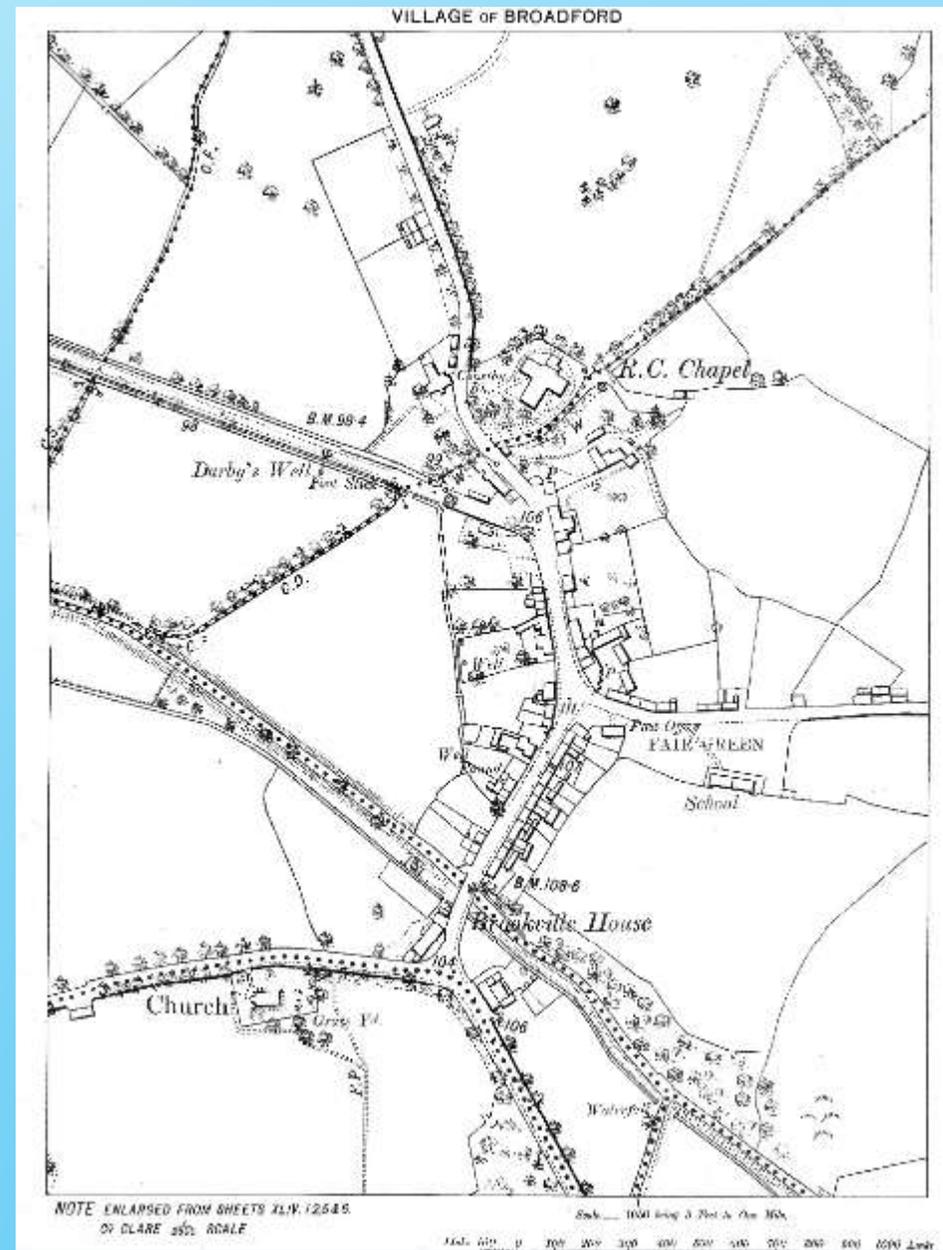

Here's another example of the map visualiser with the date range **1859 to 1870** selected

In the bottom right corner, you will see a legend - this shows the year each colour

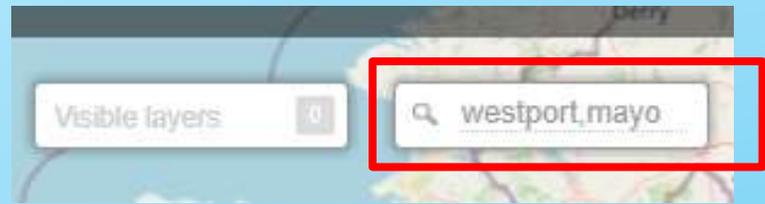

The collection also includes maps which have been enlarged from the 1:2500 scale to five feet to one mile – such as villages in Co Clare

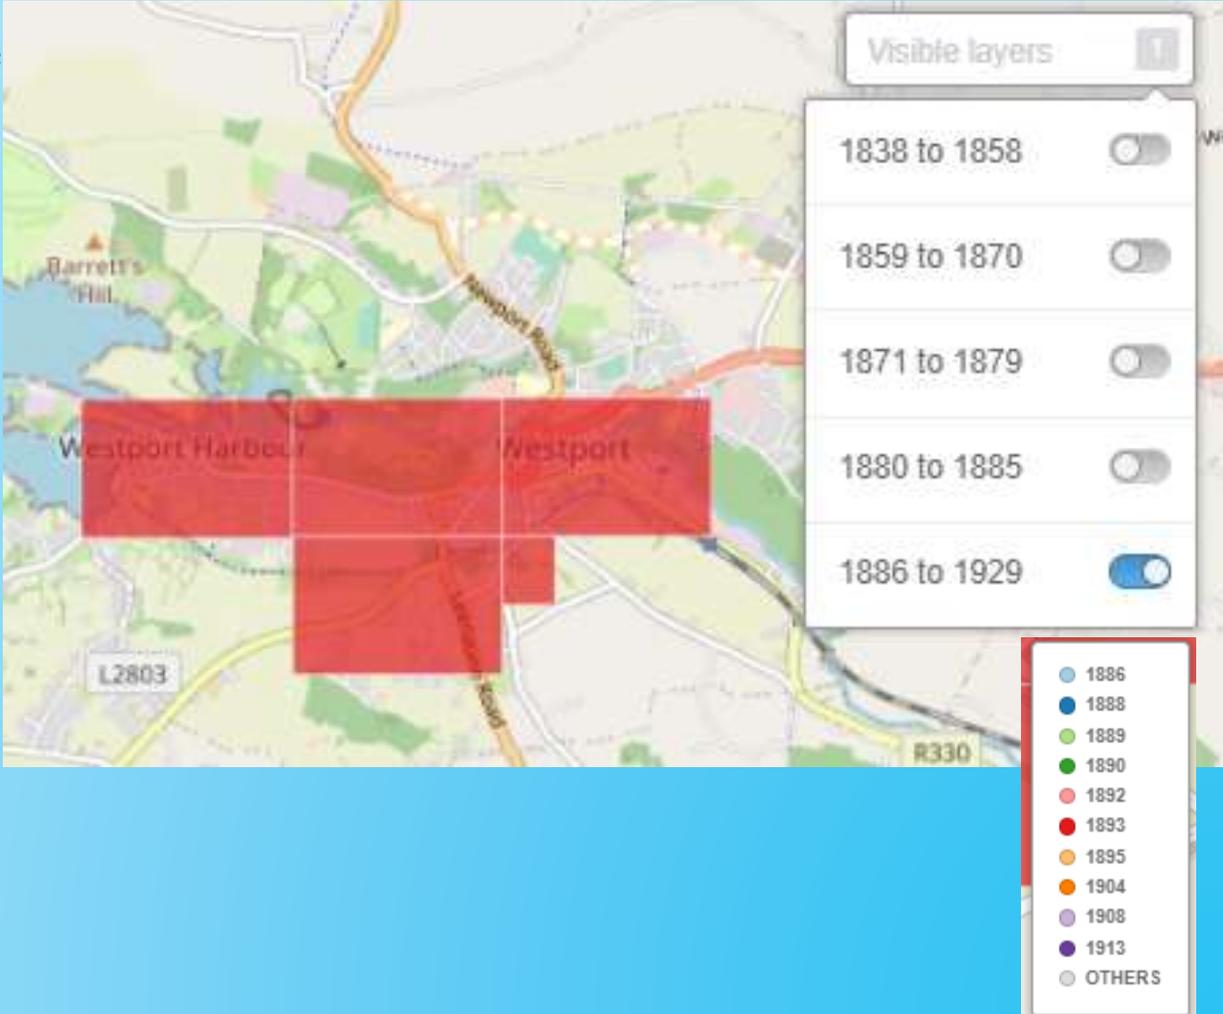

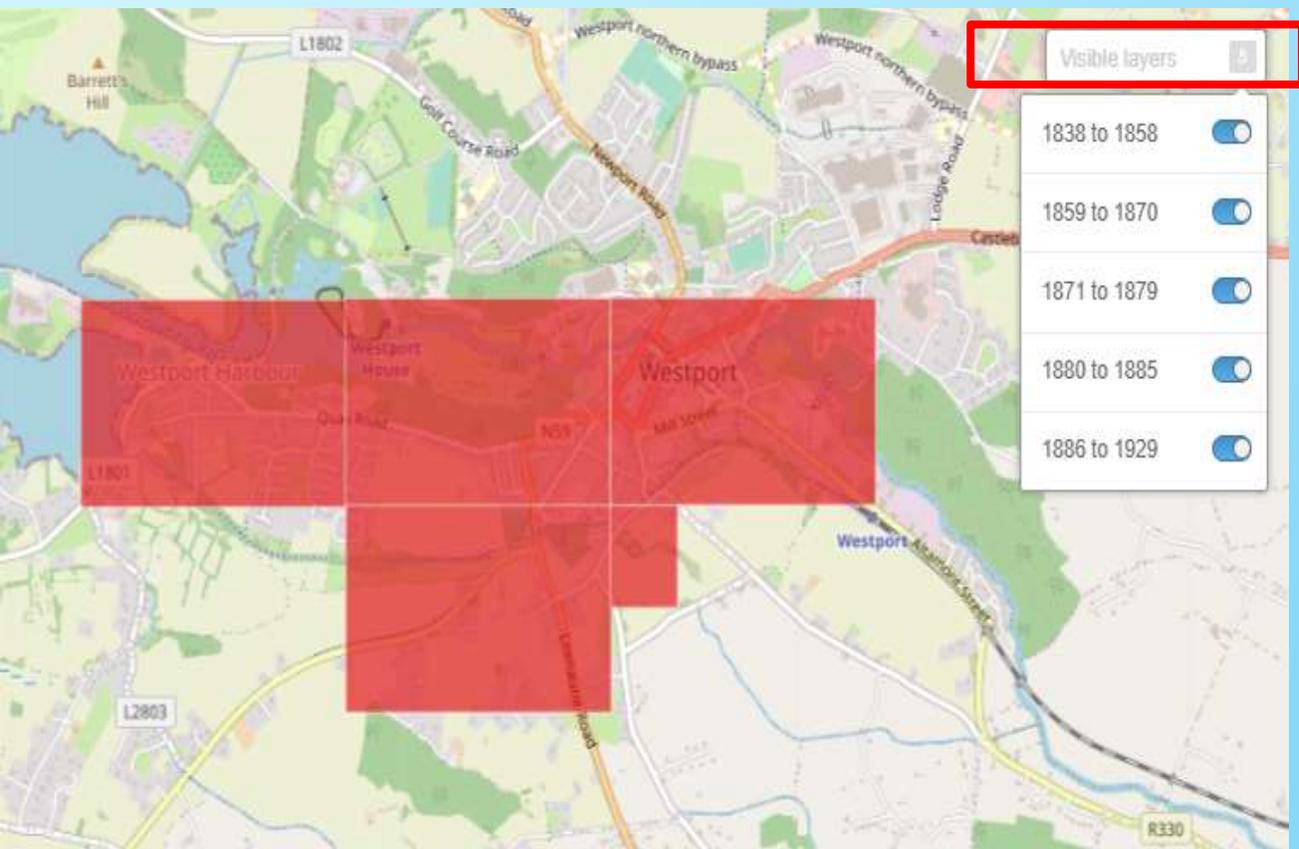

Broadford, Co Clare, 1893

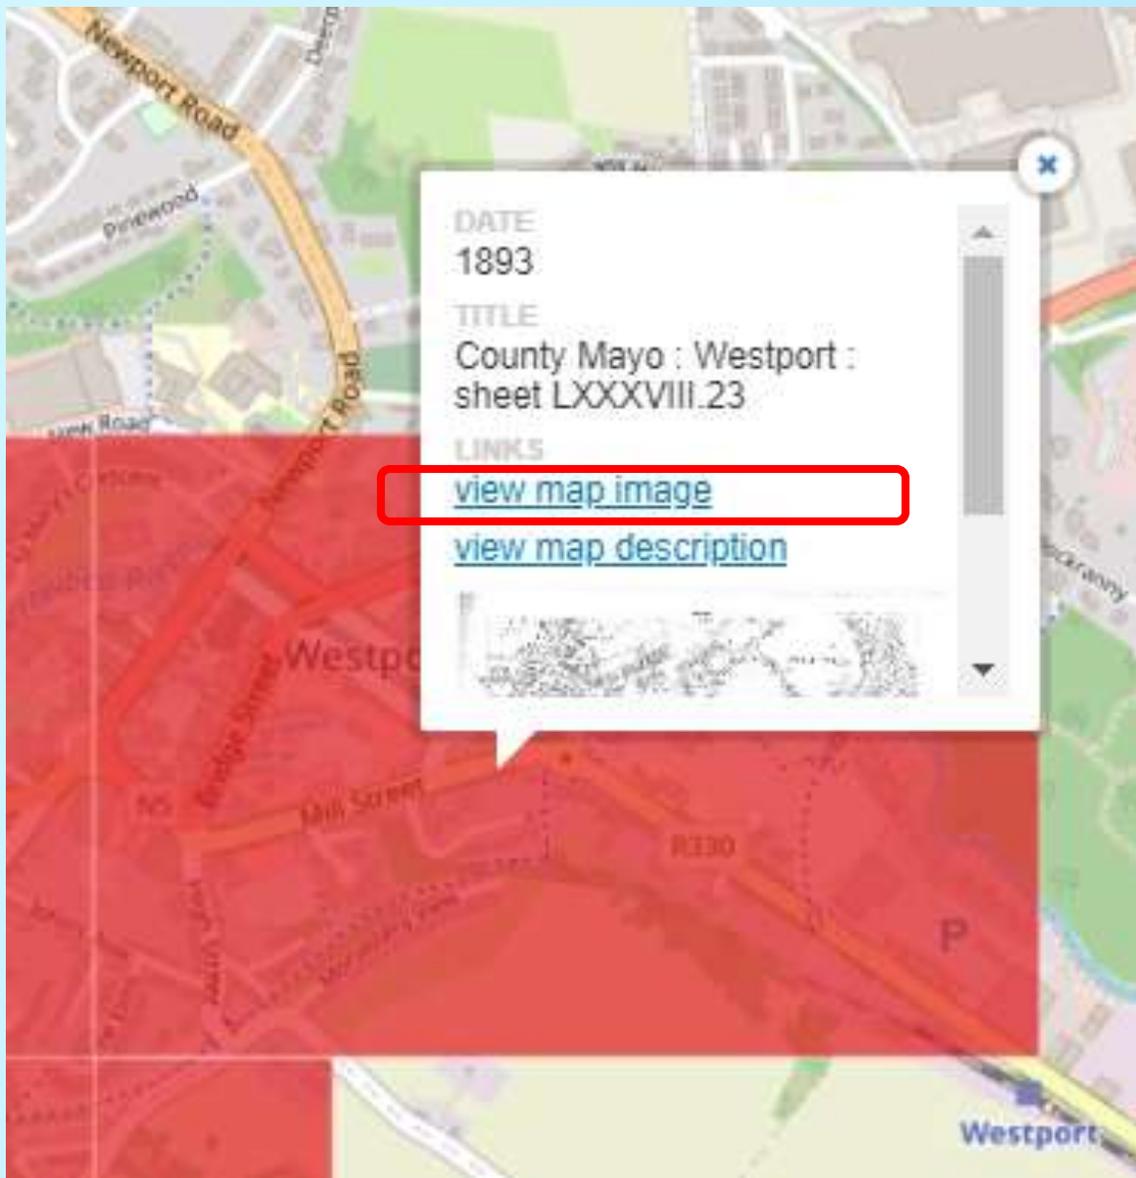

In the search box near the top right of the screen you can type in a location to find, e.g., Westport, Mayo

Click on each date range one by one to find which date range relates to the town - in this example for Westport the date range is 1886 - 1929.

The legend in the bottom right shows that the year of survey is 1893

**Left click** on the coloured rectangle for the area of interest

A pop-up will show you the date and map sheet number – (*make a note of these for future reference*)

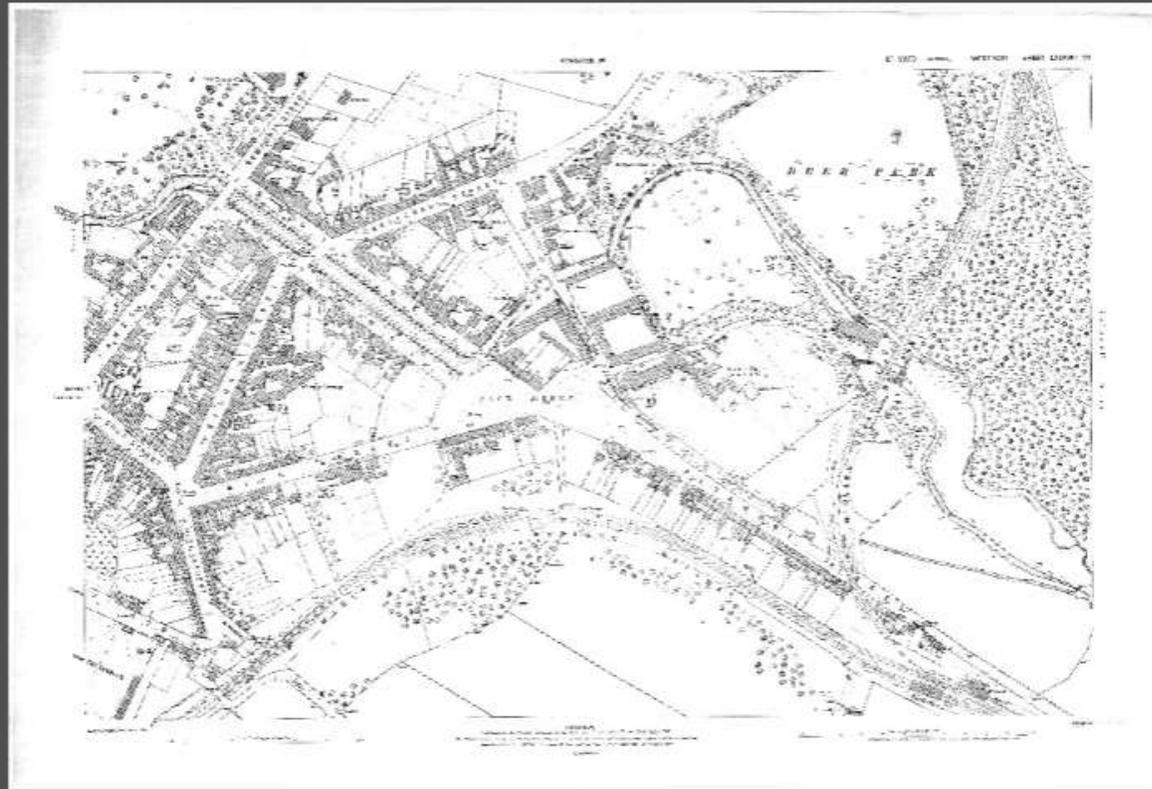

**Left click** on blue hyperlink [view map image](#)

The whole sheet map will open

As the UCD Digital Library is NOT a geospatial database, it means that each sheet map is a separate item in the UCD Digital Library. The maps are not seamlessly joined – so if you have a building on a corner you will need to find and download each sheet separately.

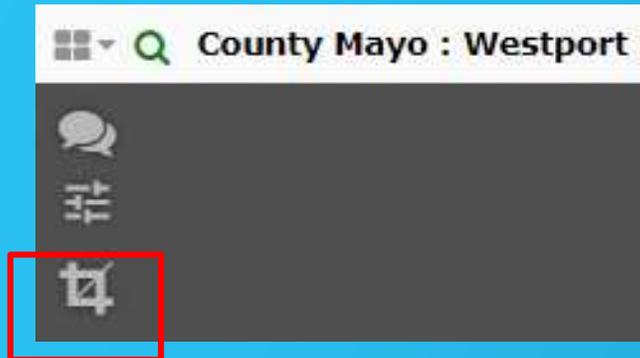

# You will then see the entire map

County Mayo : Westport : sheet LXXXVIII.23

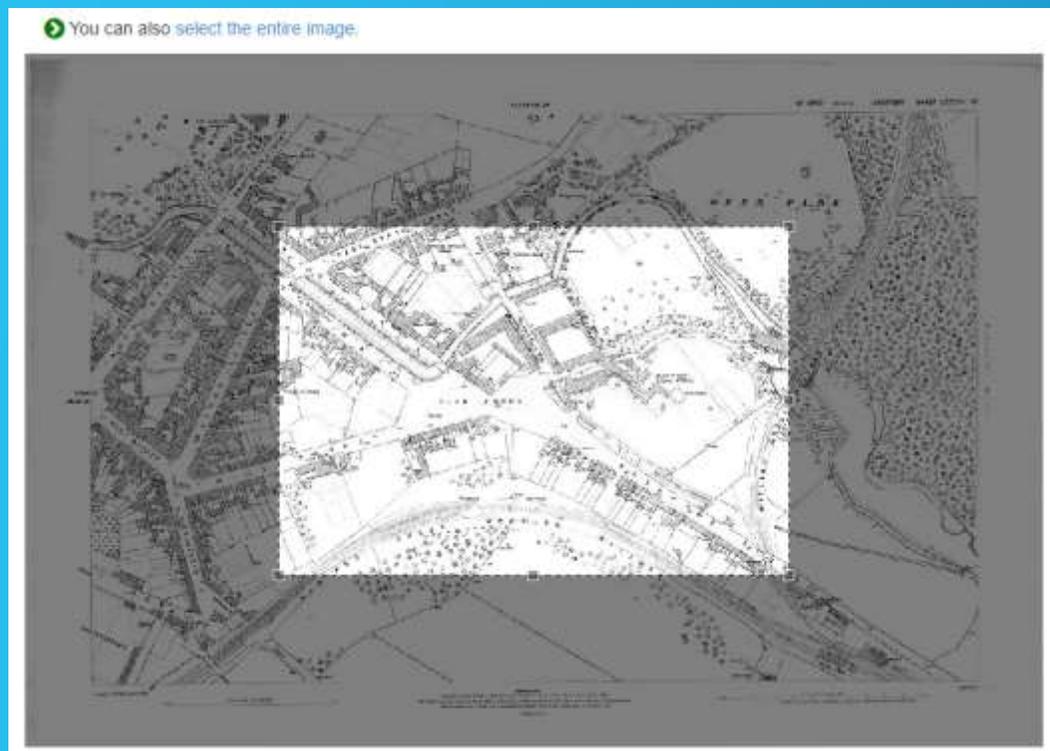

The map might seem a little fuzzy at first, click on the + button near bottom left of the screen to bring the map into focus.

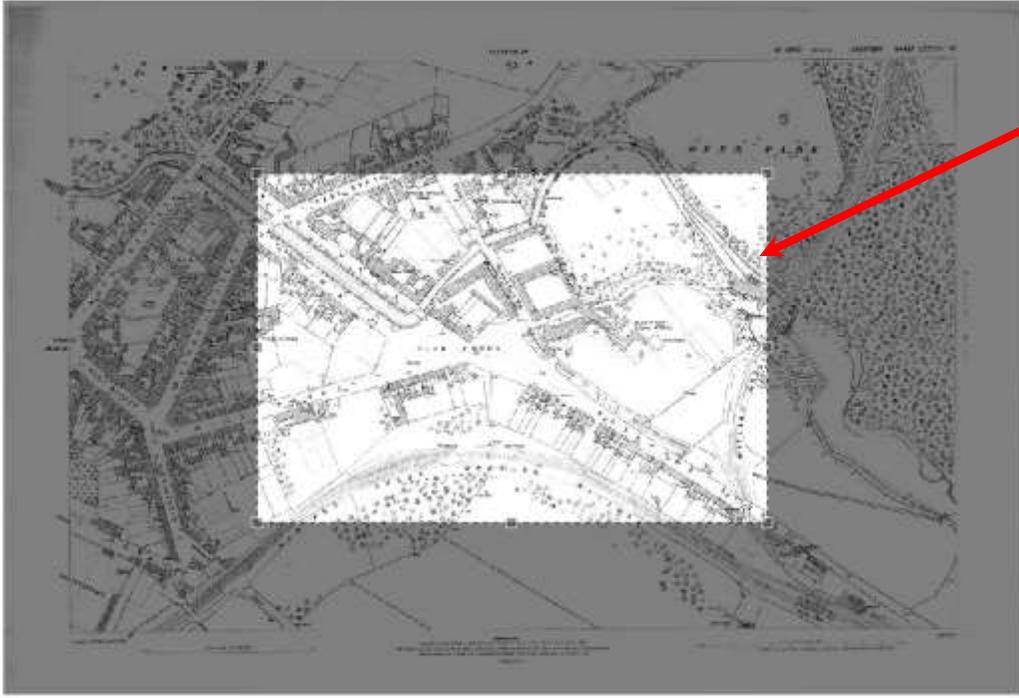

To print or save:

Near the top left corner **left click**  
on the Resize / Crop Image tool

This opens the map with a  
white crop box displayed

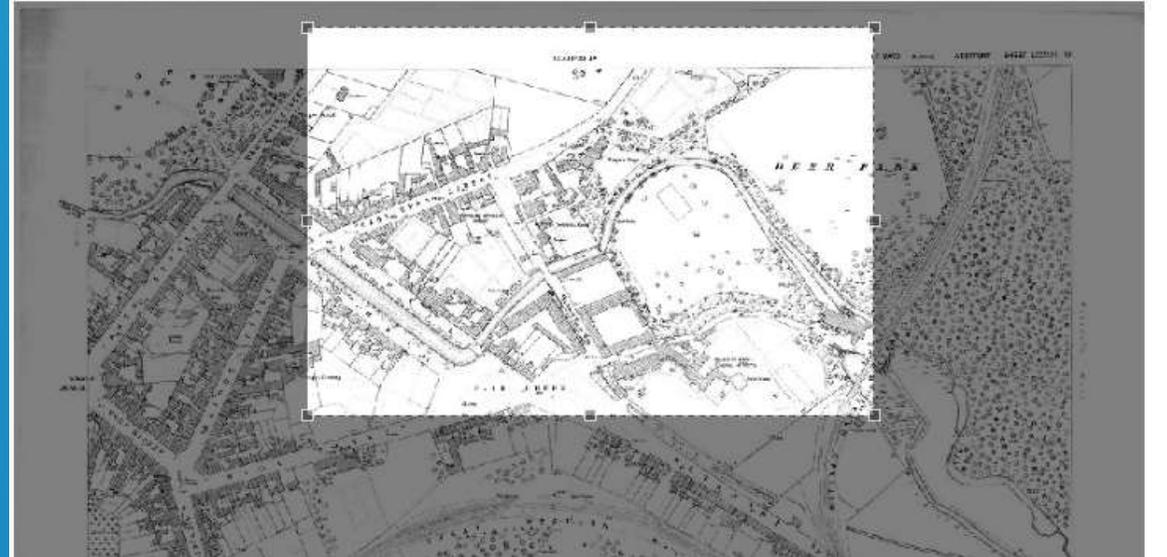

You can also select the entire image.

**Left click** on any edge or corner and drag the mouse to shrink or stretch the crop box to select the section you would like to print or save

To move the crop box left click onto it with your mouse and drag the crop box to your area of interest

You can also select the entire image.

## 2: Select Image Size

Select output image width:  1280px  1024px  800px  400px  150px — other:

Tip: When downloading a full map sheet or very large image (width > 8000 pixels), select an output image value of 8000 or higher in the **Other** box. There is no need to add 'px' to the end of the integer.

## 3: Select Image Options

Select output image format:  JPEG  PNG  GIF  WEBP

Select output image rotation:  0  90  180  270  mirror rotation — other:

Select output image quality:  default  colour  bitonal

## 4: Save or Link the image

Click on the 'Preview this image' button to open your image in a new window for download. Right click on the image to save to your computer.

Or copy the URL below to create a persistent hyperlink to your custom image:

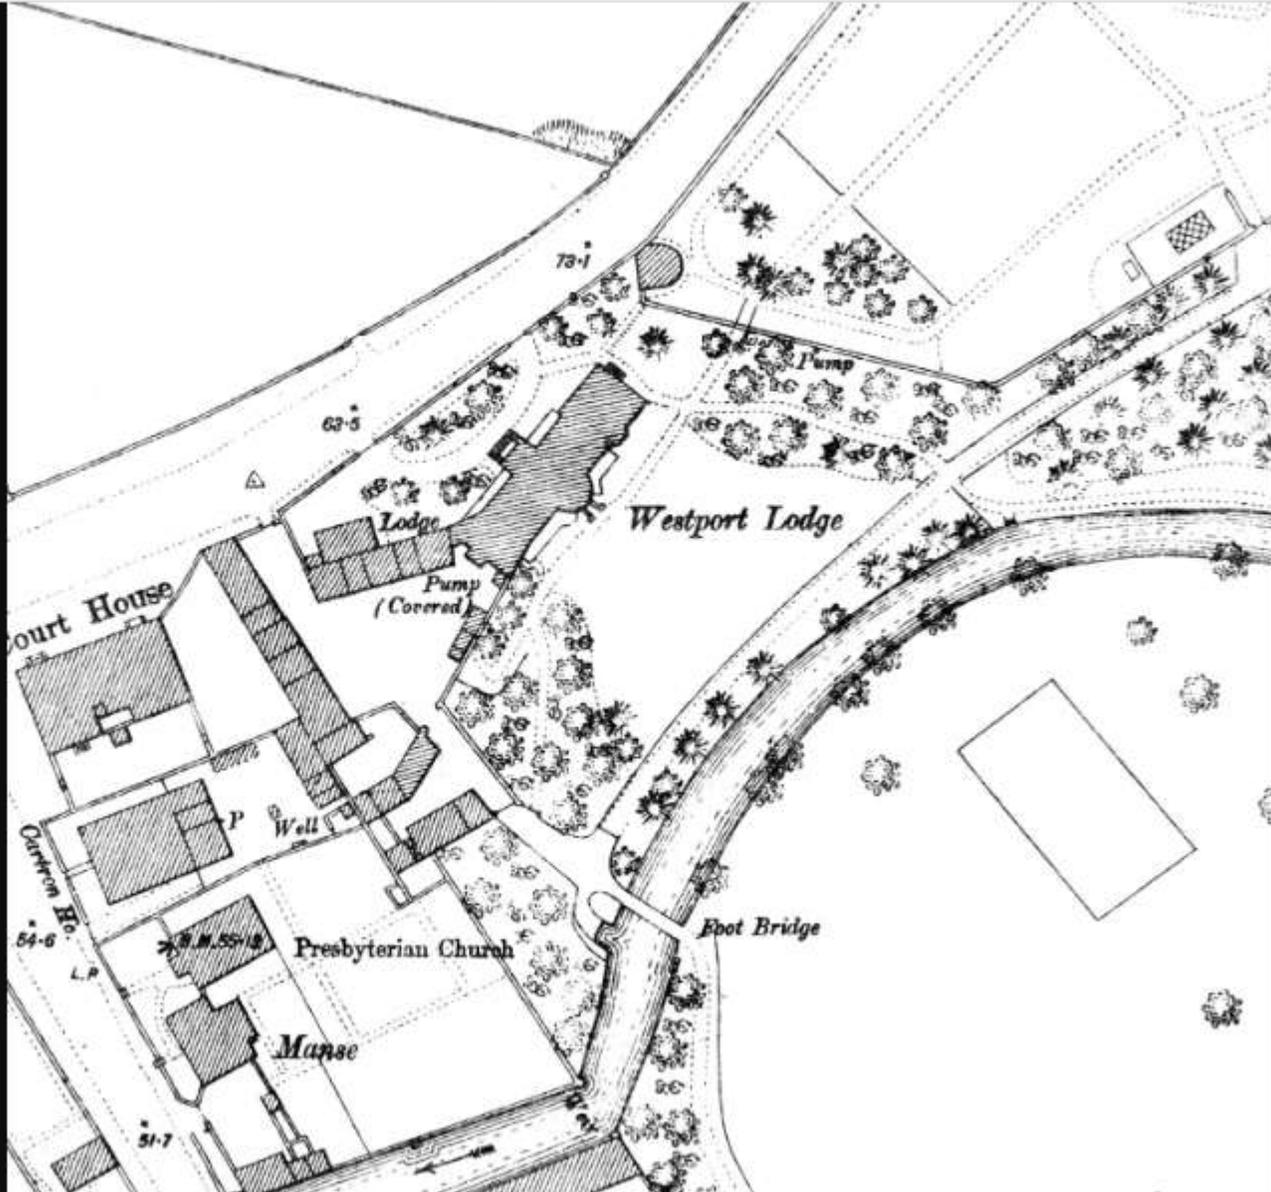

When you have selected the area with the crop box, scroll down the page to get to these settings.

For a good quality image - type 12000 into the box named **Other**

Defaults in section 3 are fine

Left click on **Download this image**

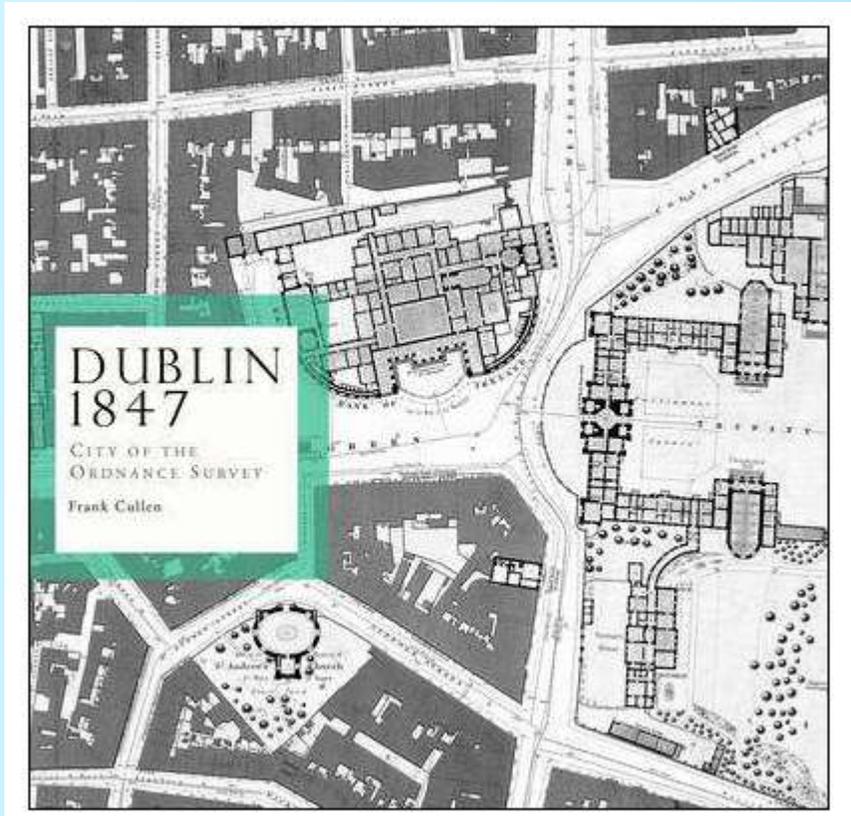

This opens a jpeg which you can save or print

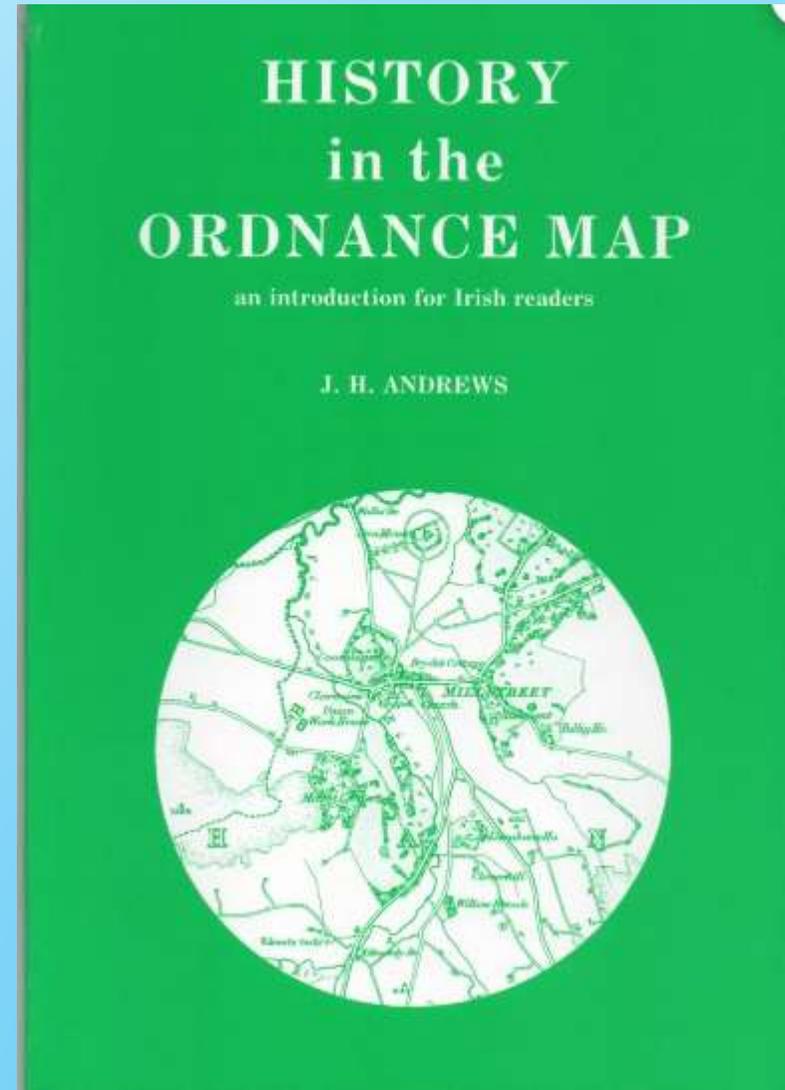

*(if the jpeg has not opened immediately, check in your downloads folder)*

Right click on the image to see  
Select **Save image as...**
